

BASINS CARE

To preserve the best quality of your Visobath basin, please ensure you follow these cleaning recommendations depending on the kind of basin:

Ceramic / Acrylic:

- Pros: easy cleaning.
- Clean with water and a soft damp cloth.
- Avoid deoxidizing products' exposure.
- To prevent deep stains, kindly use a lime scales' cleaning product.

Mineral marble / Solid Surface:

- Pros: easy cleaning and soft to touch
- Use water and regular soap
- Avoid exposure to hair dye products, paint, etc.
- To prevent deep stains, kindly use a scouring pad and liquid detergent
- It is the recommended the use of creamy or powder-soap kinds of detergents, such as CIF © and VIM © with cleaning particles.

Glass:

- Pros: easy cleaning
- Clean with water and a soft damp cloth
- Avoid using deoxidizing, solvents or chemical products
- To prevent deep stains, kindly use a lime scales' cleaning product.

Stone:

- Pros: high resistance
- Do not scrub or scour and use a mild soap
- Avoid using deoxidizing, solvents or chemical products.
